

The Curriculum

We aim to establish a broad, balanced and relevant curriculum, to meet the educational, spiritual and emotional needs of all our children. Our curriculum combines the National Curriculum (as set out by the Government) and Religious Education.

At Foundation Stage we place an emphasis on the transition between home and school, making this as smooth as possible for our pupils. The children move onto Key Stage 1 with confidence and understanding. Children are taught in groups, as individual and as a whole mixed ability classes appropriate to the learning activity. We have high expectations of our children and work is prepared by teachers to meet the different abilities and learning styles of the children in the class.

Key Stage 1 and 2:

The National Curriculum Core Subjects
Foundation Subjects

English

Mathematics

Science

ICT
